

Basis	Adhesive brown
Resin	Adhesive brown Comp. A
Hardener	PUR 50 Comp. B
Colour	brown

Applications

- Bonding of ebaboard 0700
- Bonding of ebaboard 0600

Properties

- excellent filling properties
- no sagging at vertical surfaces
- Shore D hardness approx. 65

Processing instructions

Mix Comp. A and B carefully

We recommend application with a spreading spatula.

Consumption: approx. 600 - 700 g/m²

We recommend to apply the adhesive with a spreading comb.

A mechanical treatment can be carried out not before 8 – 10 hours.

In General

The repair putty can also be used as fast adhesive and can be mixed individually with our adhesive following the indications of a mixing table in order to set up the pot-life

The adhesive is a polyurethane based 2-component-system which hardens at room temperature. It is characterised by the following advantages:

- high resistance
- very good filling behaviour

Storing

Storage at room temperature 18-25 °C.

Already opened containers should be closed immediately after use and should be used as soon as possible.

Information about the expiration date you find on the sales packages.

Safety measure

Please follow the precaution instructions of the Government Safety Organisation of the chemical industry when working with this material. Please follow safety advices !

Waste Disposal

According to arrangement with local authorities cured material can be disposed as domestic or commercial waste.
